CARROT TOP
By
R. Robert Evans

Say, won't it be a tough decision for Governor Brown to make . . . which is more destructive to the human race? . . . smog . . . in the form of gasoline engines . . . or cigarettes.

A pair of his highest taxing items, and he is called upon to choose between the two. If he loses either one of them, he is going to be a "dead duck" with his finances. And he cannot, as he says, pass any legislation that imposes any new taxes on the people of California.

Washington political analysts say the vice presidential boomlet underway for Peace Corps Director Sargent Shriver, Jr., is more probably a buildup for his candidacy for governor of Illinois . . . time will tell.

Confusing to many individuals are the economist warnings that money is getting cheaper . . . especially to individuals who are taking out loans from those TV loan sharks who advertise \$100 to \$100,000 . . . we pay all your bills, just pay us back in small, easy payments starting six months hence.

I believe Senator Rees is now proposing new legislation in the State of California to make it unlawful to charge 30% interest . . . he says that the present law was enacted with the intent of not exceeding 18% . . . but somehow the money boys easily got around this one . . . more power to the Senator.

We never get too smart to learn more . . . this past week Rudolph Hartman was back in school . . . keeping up with all the modern discoveries that will help him keep people in Sierra Madre in the best of health. Rudy goes off to school every year and always comes home a much learned man . . . it's nice to know we have one who keeps our health in mind all the time.

I was quite impressed by the work accomplished in the publication of the booklet on Sierra Madre, recently released by the League of Women Voters . . . it was very accurate and complete, and one need but to read it to discover the many, many hours of work and research that must have been given to complete it . . . it was a job well done.

One of the girls asked me this week . . . "Why are all these people coming in to see you? Seems all they talk about is politics." . . . Yep, the politicians are starting early this year . . . it's going to be a hum dinger. Of course, the June Primary is not far away, and closer yet is the city election to be held in April.

Mayor Sorensen prayed for rain at the January 14 meeting, and received it "in bucketfuls" the following week . . . he has decided that there is something better in life for him than being Mayor of Sierra Madre . . . maybe go on a national hook-up as a rain-asker.

Anyway, the Mayor made a New Year's resolution . . . says he is going to become an ordinary citizen in 1964. Of course, like Nixon, if his public demands it, and twists and turns his arm, he might consider, but I doubt it, because, you see, I think Sorensen is a Republican, like myself with a Democrat wife, he could not allow himself to follow the footsteps of another Republican.

Arcadia Corral Contributes \$250 to S.M. Rescue Team

During the past 14 years Sierra Madre residents have often heard and read in the children and adults lost or injured in the mountains of Southern California being found and brought out by the Sierra Madre Search and Rescue Team. The records show 581 persons being assisted. The team consists of 17 volunteers who donate their time, effort and equipment to this heroic work. The team is ready to go within minutes of being called by the Sheriff's Department and told of a lost or injured person in the mountains. The team has gone as far as Lake Tahoe when called into a rescue.

During October, 1963, Bill Hoegee, vice president of Arcadia Riders Corral No. 48, and his horse went over a cliff in the San Gabriel Mountains. Bill was an experienced horseman and familiar with the mountains, as his family ran a pack

train up Mt. Wilson when he was a boy and he had practically lived on horseback in these mountains.

The accident occurred when he met a troop of Scouts hiking up on a steep trail. At a turn in the trail, the horseman came face to face with the Scouts. Bill backed his horse and the horse lost its footing. Horse and rider fell about 60 feet and both were killed. The Sierra Madre Search and Rescue Team was called but Bill Hoegee was dead before he reached the hospital.

Some months previous to this accident the Search and Rescue Team had given a demonstration and talk to the Arcadia Corral for one

Mother's March of Dimes Envelopes At Your Door

Sierra Madre residents who were missed in the community's Mothers' March were urged today to send their contributions to the March of Dimes in envelopes left at their doors.

"Mothers' March" volunteers did an outstanding job in their canvassing of the many miles of homes in Sierra Madre, but in many door-to-door calls the residents were not at home. Envelopes, bearing the words, "Sorry You Weren't Home," were left at the doors. A total of \$1,083.12 was collected that evening by the volunteers, said the co-chairmen, Mrs. Gary Rhodus and Mrs. Richard Jones. They also pointed out that instead of these volunteers thanking residents for their contributions, people of Sierra Madre should thank these women for caring

about children who will be born with birth defects. The polio vaccine is possible because mothers all over the nation give of their time once a year to collect the money necessary for research which led to the vaccine.

Now they intend to do something about the next big goal, prevention of birth defects and rheumatoid arthritis. The answer is simple—money for research.

The 1964 March of Dimes campaign is coming to a close and contributions are still urgently needed. If through illness or other cause, a mother was unable to contact your residence, then please mail your contribution in your envelope to the March of Dimes.

Joe Grippi President Babe Ruth

Joe Grippi was elected president; James A. Nickelloff, vice president, and Raoul Gagne, secretary, at last Thursday's meeting of the Babe Ruth Baseball League. Mr. Grippi will replace Bud Hartman, acting president.

Serious consideration also was given to the organizing of Pony and Colt Leagues, in lieu of Babe Ruth; however, problems of recruiting enough boys for new teams, transportation to other communities, lack of adult supervision and participation, and an additional playing field were reasons the new leagues were not established for graduates of Little League.

Red Waite and Bud Hartman were reelected to manage their former Giant and Senator teams. Jim Nickelloff will manage the White Sox and take over for Joe Grippi, who managed the team last year.

Registration days for boys 13 to 15 years of age entering the Babe Ruth League will be Feb. 29 and March 7. Boys who are now eligible and interested in playing baseball are asked to be sure to report to Pete Cowell, players agent, for registration on these dates—time and place to be announced later.

Senior Citizens Hear Panama Canal Background At Saturday Meeting

Saturday, Jan. 25, Mrs. C. M. Luper gave the report on "The Background to the Present Panama Situation" for the Senior Citizens Club members.

On January 1, 1880, the Universal Inter-oceanic Canal Co., headed by Count de Lesseps, builder of the Suez Canal, started to build the Panama Canal. This company failed in 1888, mainly on account of graft and health conditions. Yellow fever and malaria killed thousands of the employees. On January 22, 1903, another treaty was made with Columbia, but it was rejected as Columbia wanted more than ten million dollars and one hundred thousand dollars for rental per year for the 30 mile wide strip across the Isthmus of Panama. The Province of Panama then seceded from Columbia and created the Republic of Panama on November 3, 1903.

The new Republic leased a ten mile strip across the isthmus to the United States, for which the U.S. paid ten million dollars and \$250,000 annually as rental. This is the treaty that the Panamanians now want to abrogate. Teddy Roosevelt did not calm the situation any when he said, "I took the canal."

The canal was completed and put into operation in 1914.

In 1955 an amended treaty gave Panama 24 million dollars worth of property and real estate, and increased the rental payments to \$1,930,000. On December 2, 1959, President Eisenhower declared that he believed Panama should have some visual evidence that she have some sovereignty over the region. The Secretary of State issued instructions that the Panamanian flags were to be flown side by side with the United States flags. The House of Representatives voted 381 against

12 against such actions. This was soon forgotten and the present lamentable flag incident of January, 1964 might not have happened.

The fact that the United States employees get better pay than the Panamanians is very much resented by the latter. Panama needs the canal, as they have very few industries. If the canal were not operated, they would lose their jobs and go broke.

Mr. Luper, who lived there 43 years, feels that greater sharing of the work with their citizens would satisfy them. He was a canal employee and had a wide circle of friends among them. He said they are a fine lot of people.

Their society consists of the "Have" and the "Have-nots" there is no middle class. The poorer classes are very jealous of the American or the "Gingoes" as they call them.

"The school boys who raised the U.S. Flag without the Panamanian flag were at fault and violated the governor's orders. Some of the U.S. residents treat the Panamanians scornfully. This does not help the situation," continued Mr. Luper.

Mrs. Luper was a librarian in Panama, and lived there 30 years. She brought her beautiful water colors, she had painted of scenes in Panama.

Mr. and Mrs. Arthur Maricq then showed their beautiful slides of the Pasien Play, Switzerland and Italy.

Mrs. Flora Anderson, Mrs. Elsie Lyons and Mrs. Francis Gardner joined the club.

Nine members of the club left to go to Death Valley with the Arcadia Club on Monday, Jan. 27.

S. M. 'Tops' Sierra Slimmers Hold Meeting

MRS. ROBERT W. CHILD
... nee Linda Marie Franzen

Wearing a full length sheath of chantilly lace with a lace overskirt, finger-tip veil held by a band of orange blossoms, Linda Marie Franzen became the bride of Robert Wellington Childs on Friday, Jan. 31, in the Bethany Church of Sierra Madre.

Linda is the daughter of Mr. and Mrs. Henning E. Franzen, 678 West Alegria, and Robert is the son of Mr. and Mrs. Warren R. Childs, 544 Catalpa Road, Arcadia.

The maid of honor was Miss Susan Shuler, wearing a full length gown of deep purple velvet. The bridesmaids wore full length gowns of deep royal blue velvet, carrying bouquets of white gardenias with lemon leaves.

The bridesmaids were Carol Berg, Jo Ellen Cress, and Jackie Warden. Mr. Frederick Cartwright Childs served his brother as best man, and the ushers were Robert Myers, Barrett Miller, Thomas Blair, and Ronald Franzen.

The double-ring ceremony

was officiated by Dr. Robert N. Schaper of the Bethany Church.

A reception was held in the Bethany Church Reception Hall with 200 guests present.

The newly married couple will enjoy a honeymoon trip to Palm Springs and will be at home after Feb. 3 at 383 W. Grandview, Sierra Madre.

Apha Chi Omega Will Hold Special Valentine Lunch

Assisting as hostesses will be Mrs. C. Elwood Laine of Arcadia and Mrs. Jack Kindred of Pasadena. Any new unaffiliated alumnae of Alpha Chi Omega living in this area are cordially invited and may make reservations for the luncheon by contacting Mrs. Kindred.

The theme for the luncheon and the decorations will be red hearts, symbolic not only of Valentines Day but also of the warm hearts of the members of this group toward the San Gabriel Valley Development Center of Cerebral Palsy at Baldwin Park. Members will bring to this meeting items to be sold through their Thrift Shop which benefits this local philanthropy.

"On the 28th of January in 63 Five obese ladies decided, desperately The time had come, obviously To Take Off Excess Pounds Sensibly Together they vowed to give up big dinners And chose a name — Tops Sierra Slimmers. Tho two were short, two were tall, one in between Their shapes all showed they never failed to lick the platter clean —"

There are the first few lines of an "Ode to Tops Sierra Slimmers" written and recited by Louise Bolitho at the Tops first anniversary party held at the home of Joan Agee. The "ode" went on to tell of the year's activities and the inspiration and help the members gave to each other at their Monday night meetings.

Everyone was especially proud of Louise as she had attained her goal of a 48 pound loss in the year she has belonged to Sierra Slimmers.

The whole group proudly points to the 270 pounds they have together "shed" in the past year and have found facing the fact of overweight and taking that first hard step of "weighing in" has helped them on the "downward" trail to healthier and slimmer figures.

Anyone is welcome to join the club. Call Betty Wilson at 355-7011.

tion, and helping them grow and mature spiritually.

Dr. Page is a native of Kentucky, and received most of his schooling in that state. He served as a volunteer in the first World War, and later continued his education with graduate study at the University of Kentucky and the University of North Carolina. Centre College, Centreville, Kentucky, conferred upon him the honorary degree of Doctor of Letters in 1948.

Coming to Pikeville College in 1936 as a history teacher, Dr. Page was elected Dean of the college two years later. He was elected president in 1941 and served in that position until January 1, 1963, when he retired and became president-emeritus. Under his leadership Pikeville College assumed full status as a four-year accredited institution of higher learning, and this year will graduate its fifth four-class. This represents a dream long held by Dr. Page and his associates at the college.

Pikeville College serves a vast underprivileged mountain area in eastern Kentucky, and endeavors to provide an education for all who are capable, regardless of economic background. At Trinity he will present "The Pikeville Story" to members and friends of the church, speaking at both the 9 and 10:30 worship services. The community is cordially invited to hear this thrilling story of an amazing venture in higher education.

Antique Valentine Display Feature At Public Library

St. Valentine, patron saint of lovers has made his debut at the Sierra Madre Library. A collection by a local resident, of antique valentines covering a century of nostalgic beauty of things past, is on display for the first time. It was a century other than ours that produced top-drawer valentines, in workmanship, variety and verse quality which made St. Valentine's Day far more beloved and colorful than it is today. Seldom seen are valentines such as these, beautiful as they are rare.

The Sierra Madre Chapter of the Chaparral Poets will also exhibit their poetry for the first time, during the month of February. Members of this organization find stimulation and enrichment in their work. They believe, that poetry has something to contribute to the world today.

Mr. and Mrs. Jack L. Christie entertained the Bethany Voyager Class with a community sing and social evening Feb. 2. They were assisted by Mr. and Mrs. Robert Williams of Monrovia and Mr. and Mrs. Robert Everhart, 610 Sierra Meadow.

Ascension

The church's solemn penitential season, commonly called Lent, will begin on Ash Wednesday, Feb. 12.

Ashes from the palms blessed last year on Palm Sunday and since kept in the homes of the congregation and then returned to be burned, will be imposed in cross form on the foreheads of the congregation attending the Masses on Ash Wednesday with the solemn exhortation to "Remember, O man, that dust thou art, and to dust thou shalt return." The Masses for Ash Wednesday will be 7 a.m., 9 a.m. and 6:30 p.m.

The revised rules for Fast and Abstinence Days during Lent are as follows: Ash Wednesday and Good Friday are obligatory days of fast and abstinence. The 40 days of Lent are fast days for those between 21 and 60 years of age; abstinence is bound upon all those over age 7. Dispensations must be obtained from a priest. Wednesdays in Lent are no longer obligatory days of abstinence.

Confessions in preparation for Lent will be heard on Shrove Tuesday, Feb. 11, at the following special hours:

Tidings

3 to 4 p.m., 5 to 6 p.m. and 8 to 9 p.m.

The Annual Quiet Day for Associates of the Community of St. Mary, as well as held Saturday, Feb. 8, beginning with Mass and Corporate Communion in the church at 8 a.m. Breakfast will follow in the Parish House. Meditations will be given by the Rev. Fr. Joseph Smyth, C.H.C.

The day will close with Evening Prayer and Benediction of the Blessed Sacrament at 3 p.m.

Fr. Smyth will be the guest speaker at the 10:30 a.m. Sung Mass on the next day, Sunday, Feb. 9.

The Lenten Study Group, sponsored by the Women of the Church and under the direction of the rector, the Rev. Harley S. Smith Jr., will begin its discussion of "The Gift of Grace," based upon the book of the same title by the Rev. Arthur A. Vogel, on Wednesday, Feb. 19, at 10 a.m. in the Parish House.

A light breakfast will be served for those attending the 9 a.m. Mass which precedes the Study Group meeting.

The book for the course of study may be ordered from Mrs. Jerome Stetson, 355-8967, Christian Education chairman for the Women of the Church. The cost of the book is \$1.

Bethany Church Notes

The Bethany Church of Sierra Madre Christian Endeavor sponsors will meet in the home of Mr. and Mrs. Al Leeming of Altadena on Thursday, Feb. 6, for dessert and planning conference. Sponsors at the church include: primary, Mrs. Virginia Burwell and Jill Johnson; junior, Mrs. Dorothy Winter; junior high, Mr. and Mrs. Gary Westover; senior high, Mr. and Mrs. Ernie Richter, and college age ambassadors, Mr. and Mrs. Al Leeming. Meeting with the group will be Minister of Education Harold Ankeny and Youth Director Judd Gordon. The Christian Endeavor societies are made up of about 100 young people who meet weekly on Sundays for a time of Christian training and fellowship.

Dr. Robert N. Schaper, pastor of the church, will continue his series of Sunday morning sermons on the first epistle of John, speaking this week on the subject, "The New Commandment." On Sunday evening, Minister of Education Harold Ankeny will preach on "The Christian Home." Both of these services will be accompanied by the choirs of the church, directed by Mrs. Margaret Schaper and accompanied at the organ and piano by Mrs. Marilyn Richter and Mrs. Mary Schaper.

The senior high young people are joining the Young Life group at their annual conference, held this year at Forest Home. Over 400 young people are expected to attend, along with adult counselors, at which time Mr. Bob Mitchell of the Young Life staff, who lives in the Bay Area, will be the inspirational speaker. Mr. Mitchell is known throughout the United States for the outstanding message he has for teenagers of today. Judd Gordon, Ernie Richter and Al Elby will accompany the high school group to the conference, to be held over this coming weekend.

The college age department will join the Lake Avenue Congregational Church college age department at a sing to be held at "The Hub" near St. Luke Hospital on Washington Avenue in Pasadena following the evening service on Feb. 9. At that time Mr. Ankeny will bring a brief devotional to the two college age groups.

Bethany Church is located at 93 N. Baldwin in Sierra Madre and extends to all friends of the community a cordial welcome to attend the services of the church. The services begin with Sunday School followed by a morning worship service at 11. The youth meetings are at 6 with the evening service following at 7 o'clock. Nursery care is provided at all services and parents are invited to bring their children.

Dr. Barnhart's Sermon Topic

"In God We Trust" is the sermon-topic of Dr. Ethel Barnhart at the Santa Anita Church of Religious Science, 226 W. Colorado Boulevard, Arcadia, Sunday morning, Feb. 9 at both the 9 and 11 a.m. worship services. The ability to trust God is a great factor in the release from nervous tension, doubt and fear. "Trust" is a dimension of faith, resulting in the ability to flow with the Universal current of God's Goodness. Dr. Irma Glen, minister of music and Mackey Swan, soloist, provide inspirational music that helps lift the individual above anxious concerns. Child care is provided at both services.

Graded classes in Christian education are open to children from kindergarten through the eighth grade at 9 o'clock Sunday mornings. High school youth meet every Sunday evening at

7:30. All youth are invited. Saturday, Feb. 8, from 9 a.m. to 2:00 p.m. the youth will be happy to efficiently wash your car in the church parking lot. Coffee will be served while you wait.

A pre-Easter class conducted by Dr. Barnhart will begin Tuesday evening, Feb. 11 at 8 o'clock. The theme of the class is "Prayer and the Word," Lent, which begins February 12, can be a great time of fasting from all the thoughts, feelings and actions that seem to separate us from the activity of God in our lives. It is a time of preparation for the resurrecting experience on Easter in our daily lives points out Dr. Barnhart.

A Bible class is held every Thursday morning at 11 o'clock. Mrs. Anna Dozier is the teacher and her subject for Feb. 13 is, "The Law of Increase." The Men's Forum will

Faith Inaugurates Lenten Season

In the 10:30 Sunday morning Pre-Lenten service at Faith Lutheran Church, 845 Hastings Ranch Drive, the Rev. Armin Hesse will speak on "The Christ of the Scriptures," taking as his sermon scripture the Lord's words located in St. Matthew 20:28. This message will center on the concept which the Lord had regarding His death and its meaning. Holy Communion will be celebrated in the service.

meet at the church for a pot-luck supper at 7 p.m. Mr. Austin Eames Smith, aeronautical engineer, will be the speaker. "Call HI 7-6162 for spiritual help, day or night," says Dr. Barnhart.

Meeting at 9:15, the Sunday school departments will focus attention on the Scriptural account of "The Calling of the Lord's First Disciples."

Faith Lutheran Church will inaugurate the Lenten season by the 7:30 p.m. Ash Wednesday service in the sanctuary. In these midweek services six Lutheran pastors will speak on the theme "Great Lenten Sermons of the Early Christian Church from the Book of the Acts of the Apostles." Since each of the six pastors will inaugurate the Lenten period with a service in his own parish, the Rev. Mr. Hesse will speak to the members of Faith congregation on "Peter's Lenten Sermon on Pentecost Day." The parish is conducting a Church Attendance and Outreach Crusade beginning on Sunday morning and culminating on Easter Sunday.

AS Hank Ives SEES IT

MEMO: Remind myself to check with the powers that be at Santa Anita and find out exactly why a great filly like Lamb Chop could not be saved for use as a broodmare. All last week the question kept popping up and the women folk seemed to be most interested. Probably a good logical answer, but at the moment it escapes me.

IF YOU HAPPEN TO LIKE to wager on favorites at the "separation center" figures prove it would be more profitable to bet them to place or show. After 23 racing days a flat two buck bet would show a net loss of \$24.80, but if you plank down a deuce on the public choice to place you would only be in the hole 20 cents. Show wagers on the favorites would produce a \$1.20 loss.

OLD HANKUS' pet theory of NOT betting the outside (12) pole in a mile-and-sixteenth race, took gas again last week when Shoemaker got Cee Tee up for a nose victory over Space Monkey. That marks three nags that have won from the twelfth post. (Shokemaker, however, has ridden two of them). Shoe also won with Touse and young Clay Brinson got Me-Jo in front with a wire-to-wire victory.

ANOTHER PET THEORY is to be very cautious about betting on a sudden drop in class. (When a horse has been doing well in allowance races or high claiming events, and suddenly takes a big dip in class, watch out! He might be sore-legged or in danger of breaking down and the owner wants to get rid of him, even for a cheap claiming price.

HAS THE RAIL POST EVER WON a sprint on the turf at Santa Anita? Not in the past three years, though some have come mighty close. It seems the outside horses are over and in front of the rail horse after several jumps from the gate.

SANTA ANITA is a rough track for jockeys to break into the win column. Roy Yaka for instance failed to even get in the money on his first 18 mounts. Pete Moreno, Alex Maese, Ralph Neves and Rudy Campas, all solid saddlesmiths had only three winners after 23 racing days. A total of 29 jockies that had accepted mounts had failed to dent the winner's circle.

MORAL OF THE STORY Place your faith (and cash) in the jocks such as Shoe, Yacasa, Boland, Pierce, York, and Milo Valenzuela, who win often enough for you to find your way to the win cashier.

LITTLE THIS-N-THAT. MOST FOLKS know about Charley Finley's penchant for colorful uniforms. The majority of baseball men disagree with the vociferous Kansas City mogul but Bobby Bragan isn't one of them.

QUOTE BRAGAN: "As much as baseball dominates sports in scope of interest and over-all attendance, football has much more attractive uniforms. Why, the baseball uniforms haven't changed in years. I think the umpires could stand a change too. They look like pallbearers."

AREN'T THE ANGELS a bit premature in naming outfielder Dick Simpson and pitcher Aubrey Gatewood as leading candidates for "rookie of the year" honors? Gatewood hurled one good game at the end of last season but Simpson was slowed down with injuries virtually the entire campaign. Still, a shortage of outfielders (Daddy Wags comeback) may give Simpson a real shot at a regular berth.

Guild To Be Wine Tasters

A wine tasting program will be featured at the next regular meeting of St. Rita's Guild next Tuesday, Feb. 11, at 11:45 a.m. in the school hall, 320 N. He will recommend the usage of the wines, invite the guests to sample them, and ask questions. Mr. Karl Krupp will show a short film on the History of Wine Making, as produced by the Wine Advisory Board.

The meeting will close with prayer.

Kappa Delta Will Hold 'Diamond Jubilee'

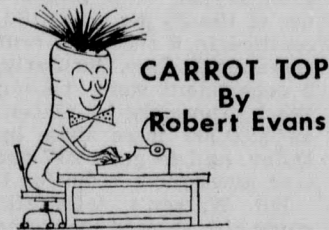

Members of the Pasadena Alumnae Association of Kappa Delta will meet on Tuesday, Feb. 11 at 6:30 p.m. for their annual "Diamond Jubilee" potluck supper to be held at the Granada Hills Community Methodist Church in Alhambra.

Proceeds from the supper will be added to the National Kappa Delta Diamond Anniversary Fund to be used for a special project to commemorate the 75th year of the sorority in 1972. Kappa Delta's national philanthropy is aid to crippled children, and the group gives \$10,000 annually toward the support of six beds at the Crippled Children's Hospital in Richmond, Va.

The program "My Trip to Australia" will be presented by Mrs. David Hodgson, a member of the group. It will include slides taken on a recent visit.

Mrs. C. L. Campbell of Alhambra is chairman of the committee. Other hostesses will be Mrs. James W. Taylor, of Pasadena; Mrs. Roland J. Carpenter, of Altadena, and Mrs. Fred R. Holford of Glendale.

All Kappa Deltas in the area are invited to make reservations with Mrs. S. LeRoy Bradley Jr., HI 7-7059.

Nevertheless, we are going to be looking for a new mayor . . . of course, we have a few other tentative vacancies, but with the serious problems that are facing us today, it is my personal belief, that we should ride these good horses for all they are worth. We need their wisdom and good judgment, in the bigger things they have been working on that is not complete general knowledge. Anyway, we will be talking more about this in the days and weeks ahead, but we are going to have an election.

—CT—
One thing is a fact . . . that good and smart columnists and enterprising writers are now in process of "discovering" how great Lyndon Johnson is, after all.

—CT—
Where, Oh Where, is the Bank of America going to locate? . . . the question that is on the lips of everyone. Well, I for one can tell you exactly where they are going to locate . . . in Sierra Madre, somewhere between Mountain Trail and Michillinda, Foothill and Carter Avenue, and just as soon as they get a building built they will be in business . . . and you can tell everyone about it.

—CT—
And what is this rumor floating around about Citizens Anglo-Crocker Bank coming to Sierra Madre? . . . heavens to betsy . . . they've been looking at property hereabouts. Could it be a cloudburst of financial institutions that are coming to the relief of Sierra Madreans?

—CT—
In closing the column this week, let me remind you: 'One way to build up other people's opinions of you is to spend a considerable amount of time paying them compliments.' See you around, I hope, I hope, I hope.

County Assessor Calls For Ceiling On Property Tax

County Assessor Phil Watson today called for a ceiling on property taxation in order to protect homeowners and businessmen from the threat of having their property taxed out of their reach.

Speaking at a sell-out luncheon sponsored by the Governmental Affairs Department of the Los Angeles Chamber of Commerce, Watson said it was "high time we took a long, hard look" at the entire system of ad valorem property taxation, which, if allowed to rise unchecked, "threatens to destroy the basic American principle of private ownership."

Watson pointed out that, as Assessor, he was not involved in the tax-setting process. However, he said, as Assessor, it was his responsibility to place an equitable value on property, and he was therefore concerned with maintaining the value of property.

"There is a point beyond which taxes become confiscatory," Watson said. "We are rapidly approaching that point in local property taxes, and the time to act is now."

Watson also called for legislation to allow tax relief to victims of such disasters as the Baldwin Hills dam break and a general tightening-up of exemptions which grant tax benefits to special interests.

Other speakers at the "Assessor's Progress Report" luncheon were Gerald W. Miller, assistant assessor, administration; Jack Carter, chief property appraiser, real estate; Richard L. Aron, chief property appraiser, personal property; John Morrissey, chief, residential real estate division; Claude Cunningham, chief, commercial industrial division; James Sorrentino, chief, business division, and Robert Martin, chief, post-audit division.

The Arcadia Corral decided to hold a horse show as a memorial to their past vice president, Bill Hoegee, and to donate the proceeds to the Search and Rescue Team for purchase of necessary equipment and supplies. The Bill Hoegee Memorial Horse Show was held at the Arcadia Mounted Police Arena. The Mounted Police donated the use of their arena as their contribution to the project. The show drew 83 horses and there were 280 entries in 15 classes. The net proceeds of \$250 were donated to the Sierra Madre Search and Rescue Team in a brief ceremony at the offices of the Sierra Madre News on February 1.

ARNOLD'S SUGGESTS FOR A BETTER LAWN AND GARDEN THIS YEAR

WATERING

We say it every month, BUT the weather has been warm, and there have been occasional winds, SO the soil dries very rapidly. It is essential to replace this moisture by deep waterings until significant, or adequate rain fall comes our way. Even then, shrubs under the eaves of the house, and others in planter boxes will be in need of regular waterings since, in most instances, these areas do not benefit from rains. Please do not neglect watering these valuable specimens because lack of moisture at the root zone now can cause as much damage as in the hot Summer months.

PRUNING

For details on Rose Pruning, refer to page No. 59 of your Red Star Pocket Garden Guide.

Deciduous fruit trees should be pruned to keep them within bounds and admit sunlight; but mainly to promote new fruiting growth. Since fruit is produced only on the previous year's growth, be very careful not to cut out all of the past season's growth, or there'll be no fruit this year! Aim at removing inside limbs, so that trees have a funnel shape. Take out dead wood and cross limbs, and cut back at least half of the tall terminal growth of the past season — making cuts just above outside buds or short lateral twigs.

MULCHING

Frosty nights are just around the corner, so now is the time to apply a nice, thick, rich "TOPS" dressing to your Dichondra lawns. Not only will "TOPS" modify the temperatures at root level, but it will improve soil structure, conserve moisture, and give a mild fertilization to your "outside carpeting."

AND, speaking of mulching, for similar protection blade grasses and most shrubs should now be mulched with Red Star Steer manure; however, there are a few particular shrubs which require only Peat Moss, so come on in the store and let us help you figure your needs. Remember, better to be safe than sorry!

INSECT CONTROL

Along with the Winter season comes the falling of leaves and dead blossoms from trees and plants — covering lawns and shrub beds with decayed, or decaying debris; and in this debris breeds snails, slugs, insects, and diseases harmful to plant life. By disposing of this rubbish now, and applying a good dormant spray generally throughout the area you will be eliminating the possibility of many pest problems later. And, remember, this time of the year, while mother-nature is giving most plant life a breather, is the ONLY time of the year a dormant, or preventative spray may be used, so do it NOW! . . . to save more costly spraying later in the Spring. To achieve maximum benefits, this spraying should be done before new growth starts to form. Come in, and we shall be happy to advise you as to the special material for this use, and the right spray gun for the application.

CRABGRASS AND WEED CONTROL IN LAWNS

The time has arrived! Now your lawn can be beautifully free of ugly effects of crabgrass, foxtails, mouse-ear chickweed, annual blue grass (winter grass) and Euphorbia. AND, it's easy, too! Just ONE simple application — not 2, 3, or 4. New PAX is the product that will do the job, and it comes in two formulas, one for Dichondra, and the other for blade grass lawns. PAX kills the seed while in its dormant stage — giving you a beautiful lawn. It also contains insecticide for soil pest control; and nitrogen to stimulate growth. Everything all in ONE easy application. It's gotta be good! It's used everywhere by professional gardeners and golf greens' keepers alike. To have a lawn that is the envy of your whole neighborhood just bring in the measurements and we'll help you figure the amount necessary.

County Assessor Watson's First Year

On December 3, 1962, the new assessor was sworn in. The voters elected him because they had enough of Assessor Quinn's unfair practices. They made Watson the "new broom," as among the eight contenders he alone had a real program and the knowhow to see it through.

(I am not a "Watson spokesman." Sometimes I had to disagree with him. As a columnist, I occasionally wish I could disagree with him more often. It would make this column more interesting. But as an owner of property, I must admit I am glad to have so little to disagree about.)

Under the battle cry, "Stop Unfair Taxation," Watson had promised he would:

(1) End the secrecy surrounding the assessment process. (Assessor Quinn never revealed the market value used in his appraisals; nor the percentage of market value used for assessing; nor what ratio was used for what type of property.)

(2) Abolish the piecemeal reappraisal system. (It made a widely scattered one-fifth of the taxpayers almost alone bear the brunt of all annual local government budget increases.)

(3) Restore the public's confidence in the assessor's impartiality. (For the taxpayer, the assessor's office had become just another taxing agency interested only in higher taxes, not in equitable procedures.)

Did Watson keep his pledge? I think he did—as well as he could in a first year.

On his first day he announced he intended to use only one ratio for all types of property. 25 per cent of market value. He could not promise to achieve this in the first year. This ratio meant that, in effect, he was also revealing the market value; taxpayers only had to multiply the assessment by four. Thus the only area of discussion is no longer a nebulous "assessed value," but the market value. For the first time in a generation the assessor functions at a level the taxpayer can understand.

Next, Watson organized his new reappraisal system. When working smoothly—which may take a few years to accomplish—it would allow reappraising the whole county every year instead of the process taking five or more years. And this, without a five-fold increase in appraisers' jobs.

To this effect he fused the land and building divisions into a single real-estate division. Thus, instead of a land appraiser and a building appraiser inspecting the property at different times, one appraiser does it all.

At the same time Watson instituted a continuous sales ratio study. It determines the assessment level of each of the county's 2,850 map book areas to find which ones shall get priority for reappraising; those most out of line in the comparison between bona fide cash sales prices and four times the assessed value.

By September, 1963, this study showed that about one-half of the 1.8 million parcels in the county are within the tolerance zone of 2.5 percentage points above and below the desired county ratio of 25 per cent—that is, between 22.5 and 27.5 per cent. For the parcels in this zone there is no urgent need for a reappraisal.

(Part II will follow)

Watson's 25 per cent ratio of assessed to market value is not far from being achieved, at least as an average. Applied by the computer,

this measure resulted in a saving of almost \$1 million. The percentage schedule was made widely known and enabled the assessee to calculate the assessment of his furnishings. Where the result seemed inequitable, assessee could request a recheck by an expert appraiser.

The system seems to be equitable. Among the 821 cases where the 1963 board of equalization granted a reduction, only 82 concerned residential personal property. Of the 93 applications denied, only very few concerned this type of property, as I remember from the hearings (a breakdown by property types was not made for the denials).

But even assuming all 93 denials were on residential personal property cases, the total would be 175—an insignificant percentage of the over 15 million single-family homes and over 600,000 "multiple" dwellings on the over 1.8 million parcels now on the roll.

(Part III will follow)

Take your problems to Church this week —

millions leave them there!

One of the keys to a boy's character is his choice of heroes.

For a hero is more than a portrait on the wall. A hero is an ideal — a blueprint of greatness.

And where does a boy find his heroes?

He finds them in books and on the playing field... in his school, his family, his Church.

The Church's contribution to a child's gallery of heroes is unique.

Bible study and religious education not only introduce him to the greatest lives ever lived... but they teach him how to build the same qualities of heroism into his own life.

REFLECTIONS
OF A MAN
ABOUT TOWN

A San Francisco wedding counselor advertises herself in the "Yellow Pages" as a "Wedding Diplomat." And believe me, I have attended a few weddings which could have used a little diplomacy.

A Bay Area drive-in movie offers a "Free Kiddieland and Heaters." I didn't think the latter were necessary in outdoor cinemas.

Latest boon to housewives: Prunes Without Pits.

The San Arno, California, police department are on their toes. Speeding motorists slow down to a crawl when they spot a police car parked on the outskirts of the city. In reality, it is a life-size wood cut-out. But believe you me, life-like or not, it accomplishes its purpose.

As you drive along the freeways you have probably noticed the signs which state: "Litter Can, 1/4 mile." And you know, I can't even find the place on the map.

A King City movie palace is billed as "Reel Joy."

Frank Burke, the genial manager of the Highlander, Sierra Madre beverage emporium, collects menus as a hobby. He has 'em from all over the world. There's over 500 gastronomic concoctions from various and sundry European dining spots in his collection. Incidentally, Frank, a dyed-in-the-wool Dodger fan, can recommend just the right vintage wine to go with your favorite entree.

Best Slogan of the Week: "Careless Driving Is Kid Stuff."

Herb Caen's column in the San Francisco Chronicle is "must reading" in the "City by the Golden Gate." Herb attended a session of the Anti-Smoking Clinic at the Whitcomb Hotel sponsored by the Seventh-Day Adventists and was so impressed with what he heard that he took "the Pledge." He admits, "I went in the hope of picking up some silly quotes from a few kookie people for a tongue-in-filter column. Instead, I was so impressed by the meeting, and the way it was conducted, that I took the pledge. Whether the pledge can take me is another question."

Herb goes on: "I had no thought of giving up smoking until I attended this meeting. Up to then I'd been indulging in the familiar self-deceptions of all gratification seekers (do all our troubles stem from the possibility that we were weaned too early?) Devil-may-care: I like to live danger-

ously. Fatalistic: 'Why give up smoking? I might walk outside and get hit by a truck!' Defiant: 'Nobody's gonna tell ME I gotta quit smoking.' Helpless: 'I couldn't quit smoking if I tried.' Patriotic: Tobacco is a major American industry. I will support it if it kills me!"

Robert Dunton of San Jose conducted the meeting and gave some one-word reasons for quitting smoking: Economics: "If people in that small audience bought only one pack of cigarettes each day for a year it would total \$25,500." Appearance: "A girl just doesn't look feminine with a cigarette in her mouth." Cleanliness: No messy ash trays." And Safety: "No smoking in bed." And one elderly gentleman called out that the best reason for giving up smoking was "Sweeter kisses!"

I suppose the over-worked (up 'til now) cigarette manufacturers are really "burned up" over all this anti-smoking talk. Maybe if they mixed some body-building ingredient with the tobacco sales might show an increase. Then they could advertise: "Smoke Your Vitamins."

Then there was the chap who dressed as if he were in the "Poison Ivy League."

See you next week.

Parentcraft Classes To Start In March

A new series of four Parentcraft meetings scheduled from 8 to 10 p.m. will be held on Tuesday, Feb. 4, 18, March 3 and 17th covering the topics: Labor and Delivery, the Husband's Role, the Normal Newborn, and the Emotional Climate of the Family. Each session includes the showing of one or more films, a talk by a doctor and a discussion period. Anyone interested may attend.

A daytime class is also offered the pregnant woman. This includes a series of ten meetings of two hours each. The first hour is devoted to a discussion of such topics as how to deal with discomfort, support during labor, the types and effects of medication, breast feeding and how to obtain adequate help for the first few days at home.

The second hour is devoted to physical training: exercises to help the figure and to promote comfort and fitness during pregnancy; special relaxation and breathing techniques for labor and delivery; and postnatal exercises which help the woman return

Home Savings Reach Billions In Assets

Home Savings and Loan Association became the first and only savings institution to reach \$1 1/2 billion in assets during 1963.

Howard Ahmanson, chairman of the board, reported that for the year ended December 31, 1963 Home's assets totaled \$1,548,128,640, a \$313,612,614 record increase over the \$1,234,516,026 reported the same date the previous year. At the present rate of growth, Home will reach the \$2 billion mark in assets in 1965.

The nation's largest savings association also reported savings accounts at year end reached a new high of \$1,367,994,730 — a gain of \$265,269,706 from \$1,102,725,024 over the 12 month period ended Dec. 31, 1962.

Real estate loans have increased \$259,382,792 from \$1,018,368,608 to \$1,277,751,400 during the past 12 months. Home makes more home loans than any other California financial institution.

During 1963, Home paid more than \$59 million in dividend payments to its more than 420,000 customers. Reserves at year end totaled more than \$122 million.

During 1963, Home opened its new six-story, \$3 1/2 million Pomona branch on the heart of the city's downtown mall. This spring the association will complete its new Burbank branch — a 3-story half million dollar building to be located on the northeast corner of San Fernando and Burbank Blvds.

Home Savings, founded in 1889, is currently celebrating its 75th Diamond Anniversary. During the year each of its 24 Southern California offices will display six unusual exhibits — two in mobile trailers.

Woman's Club To Hold Interesting Meet

Sierra Madre Woman's Club is looking forward to a most interesting and informative program at the club house, 270 W. Sierra Madre Blvd. on Wednesday, Feb. 12, at 11:30 a.m., according to the president, Mrs. Albert J. Barkman.

Mr. John Morley, prize-winning correspondent, returning from his latest trip around the world, will report "World Facts and Frauds" where we stand today, what's ahead tomorrow, and what concerned citizens can do now to help.

FLOURNOY REPORT

by Assemblyman
Houston L. Flournoy
49TH ASSEMBLY DISTRICT

Three major educational finance problems will be at the center of many discussions at the 1964 session of the Legislature: bonds for local school construction; state construction bonds for higher education; and state support for elementary, high school and junior college education.

It is becoming customary for the legislature to propose sizeable bond issues for state construction and for school building aid at every election, and 1964 looks like no exception. In 1962 the voters approved a total of \$470 million for these purposes and it is anticipated that the governor will ask \$300 million this year for local school districts and another \$300 million primarily for state college and the University of California campuses.

This construction must go on. The voters have approved bonds in the past and will probably approve them this year. There is, however, a long term concern: If these bonds continue to be issued at their current rate, the strain on the state's general fund ten years from now will reach a staggering \$173 million for debt service for these purposes alone. While the increasing growth of our economy will no doubt increase revenues to partly offset growing debt service charges, such charges will still cause increasing rigidity in the fiscal situation and higher costs. With this outlook, the Department of Finance should certainly re-study the "pay-as-you-go" method of financing for at least part of our continuing state construction needs.

Turning to increased support for local elementary, high school and junior college education, some ominous and familiar battle lines may already be seen: 1. The governor has stated opposition to increased support unless the county-wide tax "reform" is incorporated in the distribution of state aid.

2. The State Superintendent of Education has said the county-wide tax support concept is dead because the Senate will never pass it, and that the Legislature should pass \$75 million in increased support this year without the county-wide

Well by golly, just checked the calendar and what do you know, another bonus day — Lincoln's birthday. Matter of fact, February is just loaded with data. For instance, did you know that Elizabeth became the queen of England on February 6, 1952. I just happen to remember that, although she became queen, she was not actually crowned till June 2nd of 1953. How do I remember all of these little tidbits? Well I'll tell you, it was during the time my daughter had the chicken pox. Doesn't everyone remember important dates like that?

If you happen to be running out and buying a birthday gift for your favorite girl this month, you would naturally choose an amethyst, and of course, you would send her a primrose. That is called scratching the bottom of the barrel! And happy Lincoln's birthday to you all!

When the Assistance League of Pasadena have their annual party you can always depend on it being perfect in every detail. This year's theme was "Baile de las Flores" and as the name might indicate, it was the old world Mexican version of their traditional Gardenia Ball.

Mrs. Robert L. Emmet was the decoration chairman, and really earned a star in her crown for her unique ideas.

As you entered the ballroom you had to pass through an area of gardens and flowers gently spanning. On through the wrought iron gates the effect was continued around the perimeter of the lovely Viennese of the Huntington Sheraton Hotel.

Each table had a long runner of black Spanish lace and centered were tall epergnes with fragrant roses and carnations with a tall cathedral candle spiring up from the center. The flowers and candles were done in the pink and red colors. The ballroom had one large spectacular flower arrangement to compliment the individual table arrangements.

In the receiving line, in addition to their president and husband, Mr. and Mrs. J. Thornton McCarthy, was the guest of honor, Sr. Edmundo Gonzalez, Consul General of Mexico.

There was a surprise grand prize gift awarded of two first class round trips to Mexico City via Western Airlines. This prize was won by

Mr. and Mrs. James Smith of Sierra Madre Villa had a reserved table at the ball, and in their party were Dr. and Mrs. Robert Mueller, Dr. and Mrs. Cleto Dorsey, Mr. and Mrs. Alkman Armstrong, Mr. and Mrs. Robert Whitley, and Mr. and Mrs. Al Richards.

Mr. and Mrs. Matt Slavin and Mr. and Mrs. Alan

Stearns co-hosted a pre-dance cocktail party at the Slavin home on Calvert Road. Their guests were Mr. and Mrs. William McGowan, Mr. and Mrs. Richard Burdick, Mr. and Mrs. LeRoy Franden, Mr. and Mrs. Warren Clement, Mr. and Mrs. Tony Boland, Mr. and Mrs. Don Hays, Mr. and Mrs. Charles Hardison, and Mr. and Mrs. Gene Rode.

Speaking of the Mexican theme, Mr. and Mrs. W. H. Dunning returned this month from their honeymoon in Mexico City. Mrs. Dunning is the former Mrs. Thomas G. (Beatrice) Mallard of Altadena. Their marriage was solemnized at St. Edmunds Church in San Marino. They combined the children of both families to make up the wedding procession. The attendant was the bride's ten year old daughter, Sharyn Mallard, and the bridesmaids were Tracy, Cindy, Kim and Polly Dunning. Dick Mallard, her eldest son, gave the bride away, and her son Tom was best man. Young Hal Dunning served as junior usher. The Dunning will reside at the Barhite home of the groom. Mrs. Dunning, who is taking great delight in her newly increased family said it is quite a change from cooking breakfast for three to cooking breakfast for ten. The entire neighborhood welcomes here.

The Kinneola Mesa Association met last week at the Civil Defense building to elect their new officers for the coming year. They are, to wit: President, Mr. Howard Morgridge; vice president, Mr. Ralph Barnard; treasurer, Mr. Ted White, and secretary, Mrs. Phyllis Rucks. On the board of directors are Mr. John Weir, Mr. Donald Berringer, Mr. William Nash, Mr. Prentiss Hale, and Mrs. Marguerite Richards.

Unveils Trophy

An unusual industrial design trophy award, which figures prominently in one of the highlight events at the 1964 Los Angeles Industrial Fair and Congress, was unveiled by the Los Angeles Chamber of Commerce.

A replica of the bronze award, created by sculptor David Greene of Altadena, will be presented on opening day of the March 4-5-6 event at Great Western Exhibit Center, according to Knox Bourne, chairman of the executive committee for the fair and congress.

More than 150 U.S. business and industrial firms have indicated they will enter the industrial design contest before the deadline Friday. Seven prominent men in the fields of industrial design, management, production and marketing will conduct the judging.

"The grass withereth, the flower fadeth: but the word of our God shall stand forever."—Isaiah 40:8.

What Is AB59?

AB 59 (Chapter 510), enacted during the Legislature's 1963 General Session, is the most comprehensive expansionist welfare, and indirectly labor-economics, bill ever enacted in California. It exceeds the welfare dreams of the ham-and-eggheads of the 30's. Its implications spread far beyond the mere granting of relief. It will encourage the further in-migration of unskilled, uneducated, potential welfare recipients.

Assembly Bill 59 is a 21-page omnibus welfare package which:

Adopts a presumptive eligibility rule for all welfare programs, immediately effective;

Extends Aid to Needy Children benefits (now known as Aid to Families with Dependent Children — AFDC) to families with unemployed parents, effective February 1, 1964;

Prohibits counties from taking repayment liens on welfare recipients' property, effective immediately;

Provides hospital care for blind under age 65, effective as of the first of January, 1964;

Abolishes California residence requirement for blind aid eligibility, effective January 1, 1964;

Eliminates consideration of occupancy value of home owned by blind aid recipient, effective July 1, 1963.

Makes cost-of-living adjustments in various programs, effective as of January 1, 1964;

Expands eligibility definitions for Aid to Disabled program, effective as of January 1, 1965;

Reduces California residence requirement for disabled aid from five to three years, effective January 1, 1965;

Eliminates 30-day waiting period for hospital care in Medical Assistance to the Aged program, effective immediately.

The AFDC-U (U for Unemployed Parents) program has received the most attention. Among its hard-to-believe provisions are:

The reasons for being unemployed are not germane to eligibility for relief or, in other words, eligibility is not affected by the cause of unemployment.

Another provision prohibits requiring an unemployed parent on this program to take a job at a place involved in a bona fide labor dispute — a strike could therefore be subsidized by welfare funds.

Still another factor is the possible joint receipt of Unemployment Benefits and Welfare Aid—even for those industries, such as construction, which pay relatively high wages because of the seasonal nature of the work. Numerous similar anti-work, government-guaranteed-living-standard provisions exist.

Among the other provisions in AB 59, one which is likely to prove the most welfare-expansive is the presumptive eligibility provision. Aid is to be granted on the basis of an application prior to any investigation. Federal funds will not be allowed toward any overpayment or for the cost of ineligible cases granted aid.

The complexity of AB 59 made possible its enactment. Its welfare state implications could have been demonstrated had the Legislature held the normal series of hearings on the bill.

Long Distance Omniscience

Omniscience is a nice thing to have around, if you're sure you've got it. Just thinking you have it can lead to trouble.

Our distinguished eastern contemporary, the New York Times tried its hand at long-distance omniscience recently and ended up with egg on its face. The good grey Times printed an editorial on California's Bodega Head in which it hailed the rescue of the "wild scenic promontory several miles north of San Francisco from the grasp of Pacific Gas & Electric Company."

According to the Times the California legislature appropriated \$350,000 in 1957 to purchase the site for a park, but PG&E beat the state to the punch and started building a nuclear power plant. Also according to the Times, discovery of an earthquake fault caused PG&E to halt all construction and cancel future contracts.

More in sorrow than in anger, may we point out to our venerable contemporary that Bodega Head is not the magnificent scenic treasure some anti-private industry "conservationists" make it out to be. The science editor of the San Francisco News-Call Bulletin called it "a rural slum." It is not "a few miles" from San Francisco, but 50 as the crow flies, 65 by auto, via the only access road of any value, built by PG&E.

To continue: not only did the state not plan to purchase Bodega, it placed it in the lowest fourth priority of its potential sites for state parks. Furthermore, the reason PG&E halted construction was not because of earthquake faults but simply because it had completed the preliminary site work authorized by the Atomic Energy Commission, pending final AEC hearing on the plant's feasibility.

In other words, somebody really rooked the New York Times. It happens, evidently, to the best of us when we let ideological incense dull the sensitivity of our nose for all the news that's fit to print.

Weedville, Pa., Valley News: "Under consideration at the moment in Congress is a bill which would grant pay increases to almost two million government employees, and cost the Treasury over half a billion dollars. The first question any thinking citizen must ask about such legislation is: 'How can the federal government afford such an expense when we have experienced a heavy deficit in the past fiscal year and are piling up another big deficit in the current fiscal year?'"

FREEDOM

At Any Price

By H. V. Witty

Opinion on any subject is usually freely given and often accepted. However, opinion based upon knowledge of the subject is available in small quantities and is much more difficult to give out or to find. It appears that opinion is fast becoming as indisputable as fact. As veteran columnist Gene Sherman so ably comments: "I have an idea people aren't so much interested in open-mindedness as whether you think the way they do." Continues Gene: "I try, however, to base what opinions I have, not on other opinions, but on fact."

E. Merrill Root puts it this way: "Any realistic teacher knows how students' minds have been corrupted by 'liberalism' until they suppose that there are no realities, only 'opinions.' Is Shakespeare the greatest of poets? 'In some peoples' opinion!' Are there slave-labor camps in Soviet Russia? 'In your opinion!' Is our Constitution better than Castro's justice by drum-head firing-squad? 'In our opinion!' Everything is relative, a matter of 'whose opinion,' and 'Everyone has a right to his own opinion.' Such hypnotized innocents never realize that it is far less important to have a 'right to your own opinion' than it is to make a judgment that is right. Education has bred a facile, glib, surface group who know little of the facts of life, the tao, the fiat of reality. . . . They do not know what the ungrammatical realist of pike County told them long ago: There ain't no free lunch!"

"... Enhancement of political power at the expense of individual rights is correctly labeled 'socialism.'"

"... If our sole concern is that aspect of socialism which affects directly our own business, and our own industry of our own community, we will contribute to the advance of Socialism on other fronts by our neglect, and thus weaken the entire structure of (world) freedom."

"None of us is completely immune . . . to the human passions aroused by the four horsemen of our own apocalypse; ignorance, fear, apathy, and greed."

"As for me, I'm fed up to here' with pseudo-statesmen whose wishbones are where their backbones ought to be, who are past masters of surrender, compromise, appeasement and accommodation."

"... I'm fed up to here' with the wiser-than-thou self-anointed oracles who insist that differences on foreign policy should stop at the water's edge and that free Americans must not criticize programs conceived and implemented by our 'No-Win' (Council on Foreign Relations - oriented) diplomats who, over the past 30 years, have racked up an almost unbroken string of losses to Communism throughout the world; with those who would trade American lives, limbs, goods and services for Communist promises; with those who state that the Castro Communist Can-

cer has now been excised from the body politic of the Western Hemisphere; with those who are determined to confer the blessings of democracy upon the Katangans even if necessary to kill them in the process; and with those who insist that we must subsidize, with massive foreign aid, arrogant socialist and communist governments though, while doing so, we help dictators enslave their peoples."

"... I'm fed up to here' with Robin Hood government that promises to rob the rich to pay the poor and, when there are not enough rich left to pay the bills, robs rich and poor alike to pay Robin Hood and with those who would tax and tax, spend and spend, elect and elect in the expectation that the day of reckoning will come after they are gone."

"... I'm fed up to here' with farmers who boast of their rugged individualism but demand guaranteed incomes, public power and irrigation; with doctors who oppose socialized medicine but 'plug' for subsidized medical education, research and hospitals; with educators who profess a belief in personal responsibility as a builder of character but insist that government aid to education is essential for national survival; . . . and with union officials who demand laws which exempt them from the responsibilities of other citizens and give them monopoly power to regiment their members, to dictate their political allegiance and to practice violence on persons and property when they deem this necessary 'to conserve labor's gains.'"

"... I'm fed up to here' with businessmen who are so busy making and selling widgets at a steadily decreasing profit, that they have no time or energy left to fight for the system that made their business possible and who support political parties which promote socialist doctrine. . . ."

"... Where do we go from here? Perhaps the first thing each one should do is look into a mirror to see 'what manner of man he is'; and keep looking, until he knows the principles for which he stands and which he will not compromise. Once this is done, he can seek out those in government who share his views, and others of like mind who are willing to serve. We must then support them with every resource at our command, for they are fighting our battles. And we must try with might and main to increase their numbers. This should be our target for 1964!"

The above is a portion of an address given by Admiral Ben Moreell, CEC, USN, (Retired) Chairman, Board of Trustees, American Events Political Action Conference, Washington, D.C.

(Regular Sleep)

Punctuality in going to bed is a most important matter. The brain, like the digestion, has a marked tendency to get into habits, either bad or good. If any one goes to bed at different times, later on some even-ings than others, the brain is liable to select the latter hour as the one for falling asleep. This means that even on the nights when people go to bed in good time they cannot get to sleep for the next hour or two. If they would keep to the one hour regularly the brain would soon learn to do the same. Dozing in front of the fire of evenings is responsible for many bad nights. Even if people are tired and sleepy at 9 it is better for them to read or play a game or move about instead to avoid falling into a doze.

A brisk walk of 10 minutes before retiring is found to be one of the best sleep producers. (Throw away your sleeping pills!) **800 Goats Will Be Turned Loose**

Eight hundred goats will be turned loose to keep the fire breaks and mountain sides free of inflammable vegetation.

Goats have been used with success in Arizona and Nevada in clearing the mountains of dry vegetation.

YOUR . . .
SIERRA MADRE
. . . . POLICE REPORT

A member of this Department was recently honored by being invited to attend a meeting of the Mt. Alverno Guild which presented a program designed to combat the growing problem of pornography and filth which is flooding the market.

For the protection of the individual and society, the law has placed age restrictions on ownership of an automobile, driving an automobile, purchasing and possession of firearms, purchasing and possessing an alcoholic beverage, voting and other prohibitions involving age limits. Yet, there seems to be no restriction as far as age is concerned in the field of pornography or other obscene material. Any one old enough to reach the counter top can purchase reading material which is nothing more than obscene filth.

One of the problems emanates from the legal description or definition of "obscene," the description being Section 311 (a) of the Penal Code:

"Obscene" means that to the average person, applying contemporary standards, the predominant appeal of the matter, taken as a whole, is to prurient interest, i.e., a shameful or morbid interest in nudity, sex, or excretion, which goes substantially beyond customary limits of candor in description or representation of such matters and is matter which is utterly without redeeming social importance."

The questions in point seem to be:

(1) What are "Contemporary Standards?"

(2) What are "Customary Limits of Candor?"

(3) What constitutes "matter which is UTTERLY without redeeming social importance?"

This definition seems to have opened the field in obscenity.

We strongly urge parents to carefully inspect the quality of reading material that may be coming into the home. It has been said, "You are what you read."

The true artist is so lost in his work and its enlightenment to the universe that he does not even think of recognition.

License Renewals At Altadena Federal Savings

The 1964 vehicle registration renewal season is now underway. In addition to service offered at Department of Motor Vehicle field offices and at auto club offices for members, vehicle owners in this area may submit their punched card application forms at the main office of the Altadena Federal Savings and Loan Association, 2246 North Lake Ave., Altadena.

D. W. Church, president of the Association, stated that a DMV registration clerk would be stationed at this office to serve motorists who wish to pay their 1964 fees for autos, trucks, trailers and motorcycles.

Applicants are requested to bring along their complete official statement card without detaching the stub. Upon payment of the necessary fees, a validated 1964 registration card and the white sticker which is to be affixed in the upper left corner of the rear license plate, will be given each applicant. The entire transaction can be accomplished in as little as 30 seconds.

Motorists who do not receive mailed statements, or who wish to transfer ownership or change registration classification, must go to a regular DMV field office for service. Any questions about the new provisions of the use tax law should also be taken to a department office.

This is the first public showing, Mrs. Bryan has captured the art, crude construction in bas-relief sculpture of these famous California landmarks.
